Data Note: Household population includes persons not residing in group quarters. Average Household Size is the household population divided by total households. Persons in families include the householder and persons related to the householder by birth, marriage, or adoption. Per Capita Income represents the income received by all persons aged 15 years and over divided by total population. Detail may not sum to totals due to rounding.

Data Note: Income reported for July 1, 2005 represents annual income for the preceding year, expressed in current (2004) dollars, including an adjustment for inflation. In 2000, the Census Bureau reported age by income data for incomes up to \$200,000+ by ten-year age groups up to 75+ years. ESRI extended age by income data to income up to \$500,000+ by five-year age groups up to 85+ years.

Data Note: Income reported for July 1, 2005 represents annual income for the preceding year, expressed in current (2004) dollars, including an adjustment for inflation. In 2000, the Census Bureau reported age by income data for incomes up to \$200,000+ by ten-year age groups up to 75+ years. ESRI extended age by income data to income up to \$500,000+ by five-year age groups up to 85+ years.

Data Note: The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

Data Note: The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

Data Note: The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

Data Note: Population Reporting Two of More Races includes unique counts of the population who reported at least two races. Hispanic population can be of any race. Detail may not sum to totals due to rounding. Census 2000 medians are computed from reported data distributions. The "1990-2000 Annual Rate" is an annual compound rate.

Data Note: Population Reporting Two or More Races includes unique counts of the population who reported at least two races. Population Reporting Race in Any Combination counts people who reported multiple races in each race group. For example, a person reporting "White" and "Black" is added to each group here. The Population Reporting Race Alone or in Any Combination is the sum of the Population Reporting One Race and the Population Reporting Race in Any Combination. The sum is greater than the Total Population. Percents are calculated using Total Population as the base. Detail may not sum to totals due to rounding.
